Expanded course capacity

The workbook identifies offerings with more than eight registrations and compares their actual registrations with an eight person baseline.

Year	Offerings over 8	Baseline spaces	Registrations	Above baseline
2023	24	192	273	81
2024	31	248	376	128
2025	42	336	476	140
Total	97	776	1,125	349

Across 97 offerings, actual registrations exceeded the eight person baseline by 349. This quantifies registrations accommodated above that baseline; it does not establish how many participants were formally waitlisted.

Reading the results

The 47 zero registration offerings are shown separately from the 184 offerings with registrations. The source contains no cancellation status, so a zero registration count does not confirm a cancellation. The annual fill rate is registrations divided by programmed maximum registration; the three year rate uses combined totals, rather than an average of annual percentages.
